

CORDLESS VERTICAL BLIND WITH WAND CONTROL

Installation Instructions

BLIND OPERATION

- To open and close vanes, rotate the wand.

- To traverse the vanes, make sure the vanes are tilted in the open position. Gently pull the wand in the direction you would like the vanes to go.

WARNING: Traversing the vanes in the closed position may cause them to overlap incorrectly. Attempting to rotate vanes that are not overlapped properly will cause damage to you blinds! This type of damage is considered abuse and is not covered by our warranty. If the wand does not rotate easily, check each vane to make sure all are overlapped in the same direction.
